

3.5-3.75"全自动智能织缝翻一体袜机
3.5-3.75" COMPUTERIZED SOCK KNITTING MACHINE

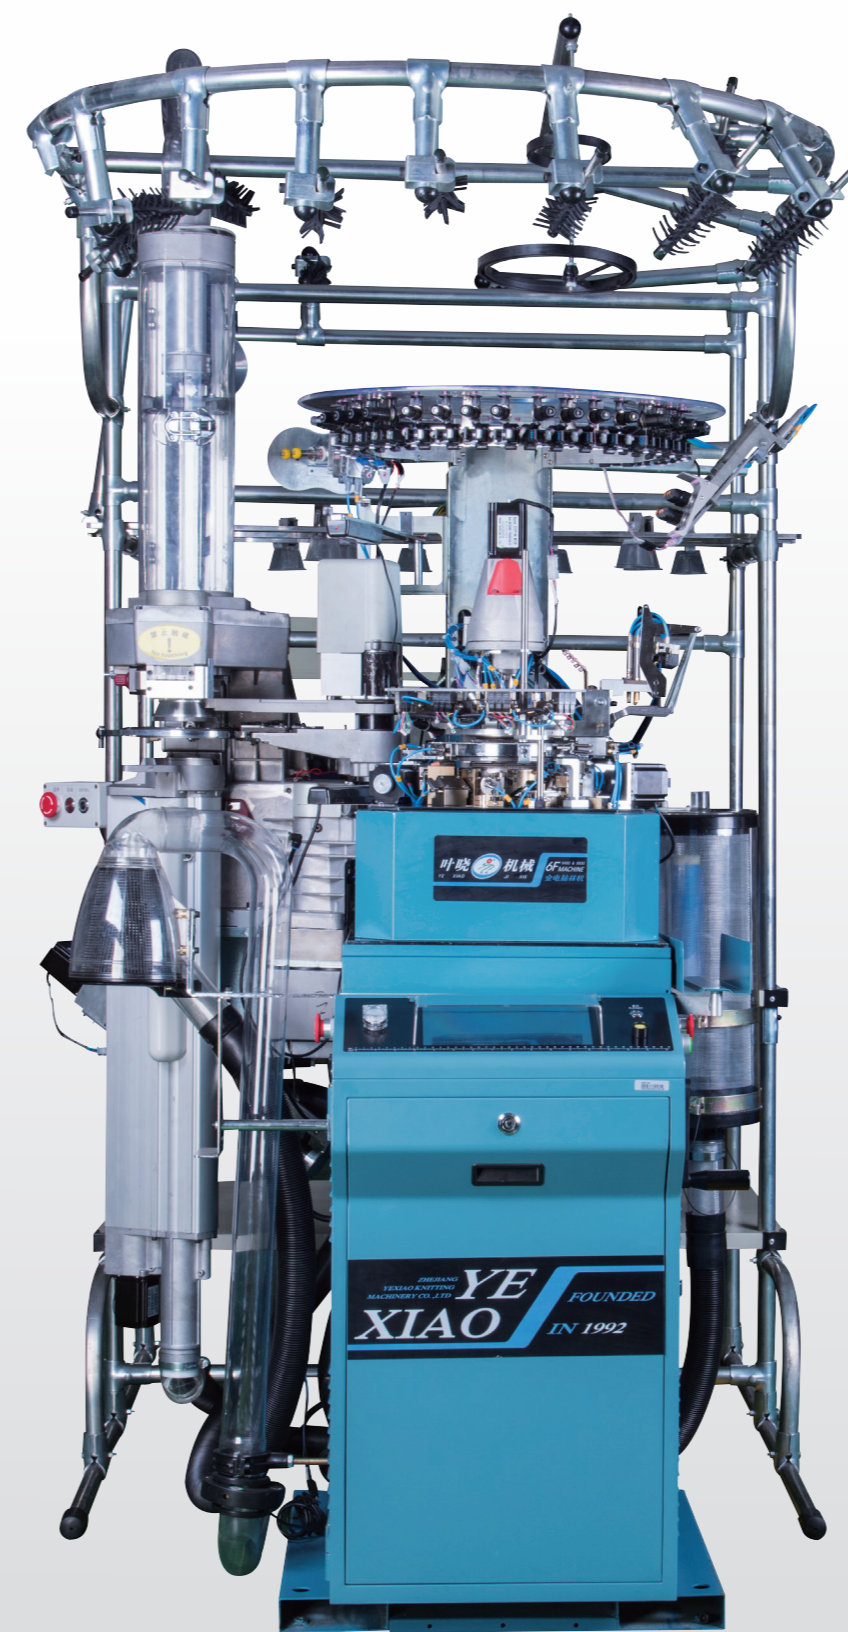

3.5" 全自动智能平板织缝翻一体袜机 COMPUTERIZED SOCK KNITTING MACHINE

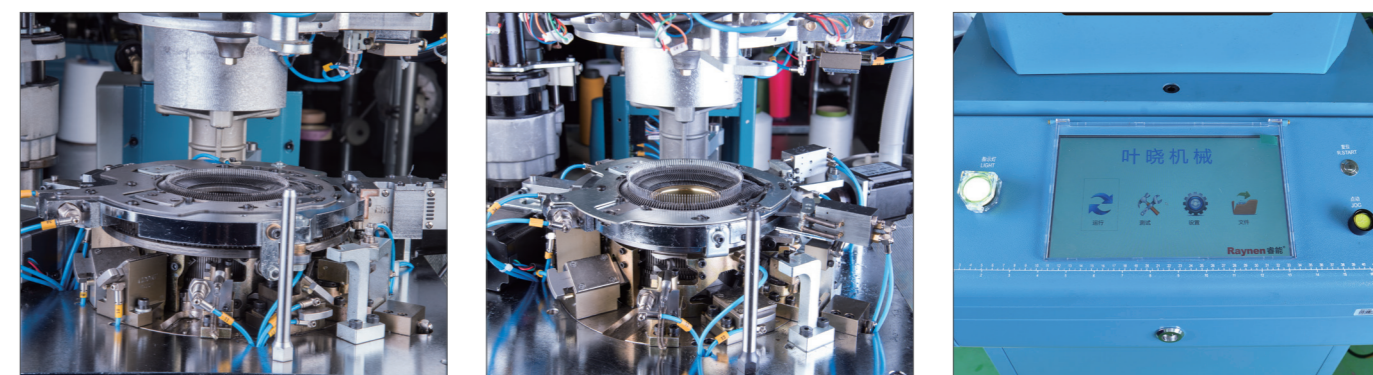

主要特色和功能: Main features and functions:

1. 全电脑控制、实现织袜、缝头、翻袜一次性完成, 大幅提高生产效率, 节省人工, 降低成本。
1.full automatic computerized control, to achieve knitting, sewing toe and turn socks completion, increase in production efficiency, save labor and reduce costs.
2. 采用独立的对目缝头装置, 可根据不同需求进行编织。
2.independent sewing head device, can do different weaving.
3. 电脑控制系统性能稳定, 触屏操作简单方便, 同时维护成本低。
3. computer control system performance and stability, touch screen operation is simple and convenient and low maintenance costs.
4. 平板、毛圈两用, 可快速安装切换。
4. Plain and terry double use and easy assemble
5. 走针部位选用优质钢材, 经特殊工艺制成, 稳定性和耐磨性极佳。
5.Needle parts use high quality steel, made by a special process, excellent stability and wear resistance
6. 密度调节装置采用高精度步进马达控制, 确保针织品质, 实现每个部位能随意调整。
6.Density adjustment device using high-precision stepper motor control to ensure that the quality of knitting, to achieve each part can be adjusted
7. 选针机构采用进口8段压电陶瓷选针器(任意毛圈机型加装进口6段压电陶瓷选针器), 配合电脑控制, 能精确高速的进行选针。
7.needle selector use import 8-stage piezoelectric ceramic needle selector (selected terry machine use import 6-stage piezoelectric ceramic needle selector), with computer control, to accurately high-speed needle selection.
8. 采用进口电子阀, 气缸等气动元件, 提高机器稳定性。
8.use import electronic valves, cylinders and other pneumatic components to improve the stability of the machine.
9. 双挑针, 双掀针设计, 左右脚可以同时编织, 大幅提高袜子产量和品质。
9.double down/up picker design, left and right foot can be woven at the same time, increase quality and capacity
10. 高灵敏度的传感器和自动报警系统, 能有效防止织针的损耗。
10.high sensitivity of the sensor and automatic alarm system, can effectively prevent the loss of knitting needles.
11. 供油可以反复使用。
11.oil can be used repeatedly.
12. 操作系统是国内最先进的, 花型、链条、密度在电脑上一气呵成。
12.the operating system is the most advanced, pattern, chain, density together
13. 拥有最大的花型存储量, 可以存储超过1000种花型, 在正常生产时可以随意调换。停电或其他原因可保存花型。
13.with big pattern storage, store more than 1000 designs, can be free exchange in producing and when Power off or other reasons can save the pattern.
14. 织袜部分操作与普通6F机器一样, 方便操作工人上手。
14.knitting operation same as normal 6F plain and terry machine, easy to learn and operate.

3.75" 全自动智能织缝翻一体袜机 COMPUTERIZED SOCK KNITTING MACHINE

3.75"全自动智能织缝翻一体袜机局部功能特写

技术参数 Technical parameters

规格 spec	平板 plain	毛圈 terry	任意毛圈 selected terry	7F
针筒直径 / cylinder diameter	3.75"	3.75"	3.75"	3.75"
针数范围 / needle number	56N-220N	56N-220N	56N-220N	56N-220N
最高转速 / Max speed	最高转速 380 转 / 分钟 Max speed 380rpm/min	最高转速 350 转 / 分钟 Max speed 350rpm/min	最高转速 300 转 / 分钟 Max speed 300rpm/min	最高转速 300 转 / 分钟 Max speed 300rpm/min
驱动马达 / driver motor	1.5KW	1.5KW	1.5KW	1.5KW
吸风马达 / fan motor	1.5-2.0KW	1.5-2.0KW	1.5-2.0KW	1.5-2.0KW
净重 / 毛重 net / gross weight	390/455KG	390/455KG	390/455KG	390/455KG
电源 / voltage	三相电源 three phase 220/380/415	三相电源 three phase 220/380/415	三相电源 three phase 220/380/415	三相电源 three phase 220/380/415
